

Profiles:

Windows are made of 6063-T5 extruded aluminum for maximum strength and are available in both in-swing and out-swing operations. Profiles are clad using specially designed polyamide clips, which help create a thermal barrier for better energy efficiency.

Configurations:

These European style windows are available with Tilt & Turn (inswing), Casement (inswing or outswing), Awning, Hopper and Fixed operations. Also available in angled (e.g 90 degree and 45 degree) and radius configurations (3 foot minimum radius).

GLAZING:

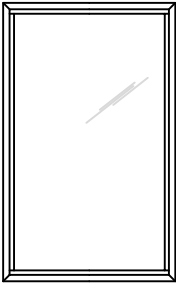

S46 profile can accommodate a $\frac{1}{2}$ " , 1" and $1\frac{9}{16}$ " overall glass.

Weight:

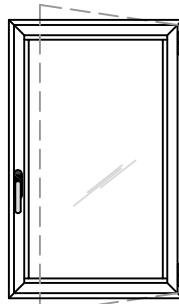

Each panel weighs approximately 7 to 8 lbs per sq ft depending on overall panel size and glass configuration.
